THE TOP STOCK RANGE OF PRODUCTS ARE DESIGNED TO

“HELP NATURE HELP ITSELF”

INTRODUCTION AND OVERVIEW

Based in “CLEAN GREEN NEW ZEALAND”, TOP STOCK INTERNATIONAL LIMITED is the manufacturer of the family range of Organic based Stock Supplements, called “PERFORMANCE PLUS TOP STOCK” .

The “ PERFORMANCE PLUS TOP STOCK EQUESTRIAN ‘ range is designed to maximise animal health, with a subsequent improvement in feed conversion leading to improved performance. TOP STOCK for Head Shaking Horses, TOP STOCK Calming De-Tox, and TOP STOCK Calming De-Tox + Glucosomine are the three special blend types, specifically designed to assist in specific areas whilst still giving the daily requirement of minerals, vitamins, aminos and metabolics. Where as TOP STOCK Maintenance is for daily requirement dosage of minerals, vitamins, aminos and metabolics etc.

As you would expect coming from “CLEAN GREEN NEW ZEALAND”, our products are cost effective, non-toxic to humans and the environment, are easy to administer and show rapid results.

PERFORMANCE PLUS TOP STOCK

Top Stock is a range of organic based animal supplements, specifically blended to make all the essential vitamins, minerals and aminos required for healthy growth, breeding and performance, *immediately available* to your horse or horses.

BENEFITS

High in Vitamin A & B groups, Vitamin C for immune system, Vitamin E for reproduction
Rich in Amino acids.

Animals find the taste palatable, so there is no risk of waste or rejection, TOP STOCK Equestrian products are a balanced diet of natural nutrients in a liquid form that is easily digestible and immediately available to the animal’ s system.

TOP STOCK Equestrian products are manufactured and blended from a seaweed and molasses base. Seaweed is the richest natural source of a wide range of amino acids, and molasses contains a complex range of trace elements essential for maximum performance.

VERY SPECIAL NOTE: "THE TOP STOCK RANGE INCLUDING THE THOROUGHBRED RANGE CONTAINS NOTHING AT ALL THAT WILL CAUSE ISSUES OR CONFLICT WITH SWABBING, JOCKEY CLUB RULES OR GENERAL COMPETITION REQUIREMENTS FOR RACE HORSES, EVENTING OR COMPETING HORSES

TOP STOCK EQUESTRIAN RANGE:

FOR "HEADSHAKERS or HORSES WITH HEAD FLICKS ":

Large Adult Horses: 25 ml twice daily, morning and night or in extreme cases up to 45 mls twice daily.

Medium - Thoroughbred Type horses: 20 mls morning and night or in extreme cases up to 45 mls twice daily..

Ponies, : 15 mls morning and night.

In all cases can be given straight, or mixed with feed, or in horses water supply.

*** SPECIAL NOTE, THE DAILY DOSE OF THIS PRODUCT CONTAINS ALL THE MINERALS, VITAMINS ETC THAT A HORSE WILL NEED, NO OTHER MINERALS ETC ARE REQUIRED "ALSO CONTAINS SPECIAL PROTEASED MINERALS AND AMINOS DESIGNED TO ASSIST WITH HEAD SHAKING ISSUES ***

CALMING DE-TOX :

For horses that are showing signs of stomach upset, have nerves associated with travel, competition or are slow healing after an injury. Very good for combating grass staggers or mud fever, is also useful when trying to gain condition on a horse or for helping the horses system to de-tox and clean.

For Adult Horses: Load up dose of 25 mls starting immediately for stomach upset or at least 5 days before travel and events or eventing and then daily until travel or events have finished.

Ponies: 15 mls daily:

In all cases can be given straight, or mixed with feed, or in horses water supply

*** SPECIAL NOTE, THE DAILY DOSE OF THIS PRODUCT CONTAINS ALL THE MINERALS, VITAMINS ETC THAT A HORSE WILL NEED, NO OTHER MINERALS ETC ARE REQUIRED. ***

CALMING DE-TOX + GLUCOSAMINE:

For older horses, or horses suffering from bruising or other injuries associated with age or a fall or minor surgery or to ease the discomfort that many older horses suffer from because of arthritis. It has all the benefits of the De-tox / Calming blend with the additional support of Glucosamine.

Adult Horses: Starting immediately, load up dose of 25 mls twice daily for 7 days

and then one dose daily

Ponies: Starting immediately, load up dose of 15 mls twice daily for 7 days and then one dose daily 15 mls daily.

In all cases can be given straight, or mixed with feed, or in horses water supply

*** SPECIAL NOTE, THE DAILY DOSE OF THIS PRODUCT CONTAINS ALL THE MINERALS, VITAMANS ETC THAT A HORSE WILL NEED, NO OTHER MINERALS ETC ARE REQUIRED. ***

MAINTENANCE

Horse: 5ml daily or 30ml weekly

Foal: Post weaning 10ml weekly

In all cases can be given straight, or mixed with feed, or in horses water supply.

TOP STOCK EQUESTRIAN FOR THOROUGHBREDS:

Please note that the Specially formulated "Top Stock Equestrian for Thoroughbred" range of products are similar to the 4 types shown above but are enhanced with extra vitamins, aminos and metabolics more suited for the use of thoroughbred horses.

*** SPECIAL NOTE, THE DAILY DOSE OF THIS PRODUCT CONTAINS ALL THE MINERALS, VITAMANS ETC THAT A HORSE WILL NEED, NO OTHER MINERALS ETC ARE REQUIRED. ***

What satisfied users and horse owners are saying:

FROM A RIDER AND TRAINER:

Rebecca Rigdon, " USA gold medal winning dressage rider used and uses this product on one of her client's horses and has this to say about it:

"I was presented with a client's horse that had developed "Head Shaking Syndrome"

We joined a study run by the University of California, Davis Campus of Veterinary Medicine conducted by Dr John Madigan that used a product from New Zealand called "Top Stock for Head Shaking Horses", and I can say with great delight that week after week I saw significant improvement with this horse. He went from

being "UNSAFE TO RIDE & MISERABLE", to a "HAPPY, RIDEABLE HORSE" in a matter of weeks.

"I would happily recommend this all natural product, which is legal to use during competition, to anyone dealing with the former career ending syndrome of Head Shaking. Top Stock for Head Shaking horses gives us hope and resolution".....

You can find more information about this trial and the TOP Stock Equestrian products by going to www.horseheadshakinghelp.com where you will also see comments written by Dr Madigan

FROM A NORTH AMERICAN COMPETITION RIDER AND EQUINE VET:

"Dr Chrysann Collatos" VMD, PhD, DACVIM, from the "High Desert Veterinary Service ", in Reno, Nevada has this to say:

"One of my show jumpers recently took part in a trial using TOP STOCK for Headshaking Horses being run by Dr John Madigan from the Davis Campus of the University of California ",

"I am very happy and pleased to be able to say that my horse was one of the 75% of the horses on the trial that showed and is still showing significant improvement. I am still using this "Special Miracle Mineral" product, and like Dr Madigan I would recomend "TOP STOCK for Headshaking Horses" to anybody that has a horse suffering from this ailment".

You can find more information about this trial and the TOP Stock Equestrian products by going to www.horseheadshakinghelp.com where you will also see comments written by Dr Madigan

FROM AN AUSTRALIAN RIDER AND VET:

As a traditional veterinary Surgeon with an Wholisitic Veterinary practice in Victoria I examined the constituents of the Top Stock range of Animal Nutritional Supplements with interest hoping at last a product was available that delivered essential vitamins, enzymes and nutrients without the other additives so present in "Pharmaceutical" style formulations. My analysis produced excellent results.

I am impressed by the iodine free rich mix of natural constituents present. I have four horses of my own and am happy to supplement their feed with Top Stock Equestrian products

Additionally I have and will recommend to my clients and fellow Veterinary practitioners especially in those practices with Equestrian patients to consider Top Stock Equestrian Range of Supplements as the better alternative to ensuring natural and non-toxic supplementation for the full range of nutritional dietary supplements. I understand the cost-benefit of the Top Stock range is also supportive of primary producers needs in these harsh drought times and fully support that as a further benefit of using Top Stock's supplement range.

Anne Neville B.VSc, South Road Animal Health, Bentleigh Victoria

For information on recent and ongoing trials conducted by Dr Madigan from the University of California go to www.horseheadshakinghelp.com

ANALYSIS:

As mg / 20ml:

Sodium: 5.64 Potassium: 10.3 Phosphorus 10.3 Calcium: 73 Magnesium: 12.6 Copper: 43.32 Iron: 9.5 Zinc: 8.98 Sulphur: 14.2 Nitrogen: 238 Selenium: 0.0384 Boron: 5.3 Cobalt: 0.1786 Manganese: 0.982 Molybdenum: 0.53 Also contains Amino Acids, Vitamins, and Minerals which are found naturally in the liquid kelp and molasses
